

Designed for the modern IB PYP Coordinator:

- ✔ Collaboratively plan your Units of Inquiry and export directly to the PYP Planner template.
- ✔ Build stunning student portfolios.
- ✔ Use built-in IB Scope & Sequence or import your own standards.
- ✔ Create stunning PDF report cards customized for your assessment criteria.
- ✔ Improve school-to-home communication by sharing student progress and showcasing the Programme of Inquiry.

Everything you need to manage your IB Primary Years Programme!

Paperless Programme of Inquiry

Automatically organize your Units of Inquiry around the six transdisciplinary themes, and easily display unit titles, central ideas, lines of inquiry, subject focus and unit authors. Store stand-alone units and track coverage of concepts and skills. Allow direct parent access to your Programme of Inquiry.

Collaborative Unit Planning

Collaboratively plan your PYP Units of Inquiry. Our step-by-step unit planning wizard includes helpful guidance to walk you through the planning process.

IB or Local Standards

The IB Scope & Sequence for all subject groups comes built-in for easy curriculum planning. Edit the IB Scope & Sequence or send us your own standards. We support all major languages and popular standards like the Common Core, AERO and the Australian Curriculum.

Curriculum Analytics

Track balance and coverage of all concepts and skills across the PYP with our curriculum analytics. Filter by subject group or year level to see which Transdisciplinary Skills, Learner Profile attributes, Attitudes or Key Concepts have been addressed and how often.

Student Portfolios

Identify student Learning Goals, write notes, upload photos & files and improve school-to-home communication. Write narrative comments on student progress.

Integrated Gradebook

Customize your PYP Gradebook to include most popular forms of assessment in the PYP: Units of Inquiry, Assessed Subjects, Transdisciplinary Skills and more. Evaluate students against IB or local standards and see units and skills flow seamlessly into the gradebook from the planned curriculum.

Discover why over 2,000 IB World Schools use ManageBac!

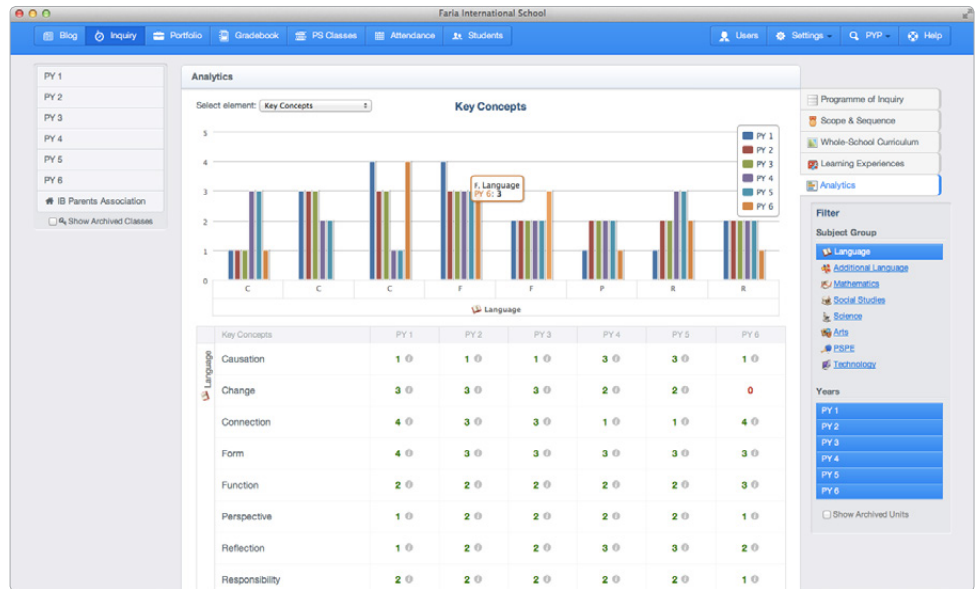

“ The curriculum planning and reporting aspects of the program have been extremely useful. I am able to see what each teacher is planning, and we have been able to report effectively without stresses. ”

Virginia Neilsen
PYP Coordinator
Trondheim International School

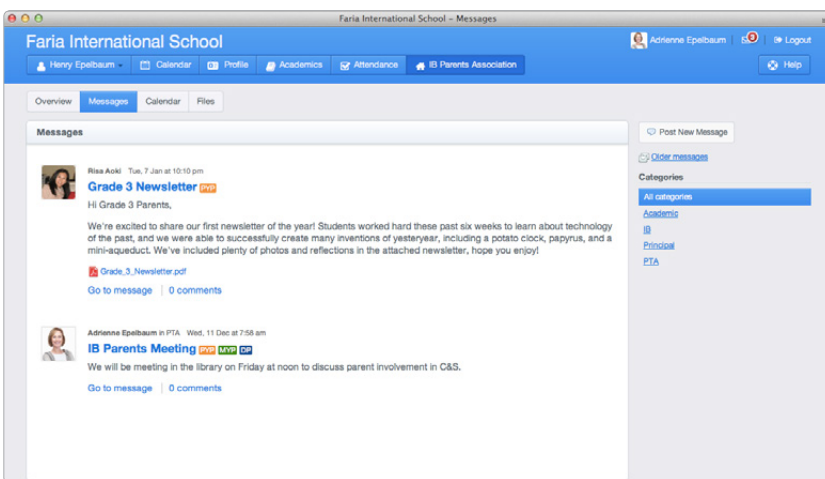

Curriculum Analytics

Discover the benefits of a paperless Programme of Inquiry! Curriculum analytics are fully integrated and updated in real-time as teachers create, edit, or share units. Visually track coverage of concepts and skills across the PYP. Whether you use the IB Scope & Sequence or your own standards, you can see at-a-glance if the material has been covered.

Effortless Parent Communication

Give parents access to your Programme of Inquiry and the first stage of the unit planner. Parents can view and comment directly on their child's portfolio, and access current and past report cards. Use the IB Parents Association group to easily communicate with parents by grade level and to send e-mail notices and newsletters.

Streamlined Reporting

Our fully integrated term gradebook is customized for PYP assessment with units of inquiry, assessed subjects, transdisciplinary skills and more. Access the gradebook any time across all devices, and generate stunning PDF report cards to share instantly with parents.

Including:

The built-in IB Scope & Sequence!

(Or use your own local standards.)
